The panel discussion on Non-Official Cover chaired by Mr. [REDACTED] was received with interest by the students.

4. COMMENTS

The course was basically sound with respect to the achievement of its objectives. The average consensus of the students reflected that the course was of considerable value and it was of more than moderate interest. Specific instructional topics of greatest and least value to each student, varied in proportion to the experience of each student. There was a wide spread of grades, age and experience in this class. (See Attachment C, Student Critiques).

The Command Echelon of the Europe Division not only gave presentations in the course but, monitored most of the presentations during the first week.

All lectures and seminars which were given during the first week were recorded on tape at the request of Europe Division for future reference.

The next running of this course with respect to the first week schedule, has been tentatively set for November 1970.
